### **DCU's Examiners Achieve Salary Parity with Other Divisions**

We are pleased to report that on May 14, 1998, through action of the State Personnel Resources Board, the DCU's examiner positions were reclassified and merged (in government-speak) with the series of examiner positions used by the Division of Banks and the Division of Consumer Services. All three Divisions will now use the same series of financial examiner positions, with the same pay scales. The immediate effect of this change is that our examiners will receive a pay increase so that their pay is consistent with the examiners in the other Divisions. We have budgeted for this increase and do not anticipate that it will necessitate a fee increase.
